

GRAVITY TRAILS

9 Thredbo All-Mountain Trail ■ 10km

Highlights: • Unrivalled alpine experience • Awesome flowing singletrack • Lush forest sections • Undulating traverses

The All-Mountain Trail travels 10kms down through impressive mountain landscape to the village below. Traversing across the Central Spur area, the use of natural rock slabs rewards riders with spectacular riding terrain. The trail then heads into the Cruiser area with awesome flowing singletrack before diving into the woods of Dream Run and High Noon with consistent deep berms. Once at Creek Station, you can head back to the Kosciuszko Express Chairlift via the Home Run trail, or take the easy cruise back via the Friday Flat Loop and Friday Drive.

8 Kosciuszko Flow Trail ■ 4.5km

Highlights: • Snow gums flow section • Huge berms • Fun rollers

Perfect for those looking for an introduction into downhill riding or a warm up for the Cannonball. The Kosciuszko Flow Trail rolls through flowing singletrack down the slopes of the Crackenback Supertrail with never ending rollers and smooth berms. With the steady gradient and smoother surface, this is a more mellow ride than Cannonball, while still providing the rush of gravity downhill mountain biking.

10 Cannonball Downhill ◆ 3.3km

Highlights: • Snakes and Ladders technical section • Bunnywalk Gap Jump • Milk Run Wall-Ride

Thredbo's signature trail, the famous Cannonball Downhill takes riders to their physical and mental limits. Descending 600m vertically through the tree-lined Supertrail slopes, Cannonball tests riders with roots, rock drops, jumps, wall-ride and other technical features that the gravity specialists dream about. The finish area features huge jump lines testing the most advanced freeriders.

*Full-face helmet highly recommended.

11 Easy Street ● 2km

Easy Street gives riders green run access to the Kosciuszko Flow Trail. Starting at the top of the Gunbarrel Express Chairlift, it links up to the lower section of the Kosciuszko Flow Trail. This beginner flow trail is a great starting point for those new to gravity riding. It features easy traverses, small rollers and a steady gradient.

5 Home Run ■ 800m

This gives riders a direct route back to the Kosciuszko Express Chairlift. From Creek Station, head across the river on the summer road, up a small pinch climb to the top of the Alpine Bobsled and veer right to descend on cruisey flow with deep berms back to the chairlift for your next lap.

7 Ricochet ■ 3.2km

Graded as an intermediate flow trail, the Ricochet trail makes its way through awesome terrain on each side of the High Noon steep with flowing berms and cruisey traverses before linking up with the last section of the Lower All-Mountain Trail. From there riders can head back to the Kosciuszko Express Chairlift via Home Run or take the Friday Flat Loop back to the Gunbarrel Express Chairlift.

12 Woody's ■ 900m

This naturally cut trail will give riders an introduction into technical singletrack riding with some flowing berms. A great short alternative to ride the lower half of the mountain.

MTB MAINTENANCE WORKSHOPS

Covering all the basics of bike maintenance, these workshops are a great way to learn the essentials of servicing to ensure your bike is in the best possible shape to shred the MTB Park.

When: 1:30pm every Saturday during the 2020/21 MTB season

Cost: \$18

Location: Maintenance Workshops meeting area located next to Merritts Gondola

Book: **Bookings essential.** Book online or visit Guest Services at Valley Terminal

CROSS COUNTRY TRAILS

1 Village Loop ● ■ 2.9km

Highlights: • Technical climb • Village views • Fun descent back to village

The Village Loop heads out from Valley Terminal past the base of Snowgums Chairlift then starts to climb. Traversing through forests, past waterways and rock pools, it meets up with the Kosciuszko Flow Trail which brings you back to Valley Terminal. This trail is also accessed by the Friday Flat Loop and the All-Mountain Trail.

2 Friday Flat Loop ● ■ 2.4km

Highlights: • Undulating creek crossings • Beginner switchbacks • Gradual climbs Starting at the Thredbo Valley Track trailhead, riders cross undulating terrain, across bridges and through gum trees before a winding climb. This links the Thredbo Valley Track to the trail network.

3 Pipeline Path ● 2km

Highlights: • A great warm up • Easy access from village • Quiet scenic ride

With a steady gradient, this path loops around the snowmaking pond. From here riders can pedal onto the Friday Flat Loop, Thredbo Valley Track or simply follow the track behind the big car park, onto Friday Drive back to the village.

4 Thredbo Valley Track ■ Rides ranging from 5km return to 35km one way

Highlights: • Unrivalled river views • Easy going riding • Picturesque rest areas

This shared use trail takes riders down the picturesque Thredbo Valley along the banks of the Thredbo River and includes some amazing suspension bridges. Riders can maintain flow undulating through open grasslands and thick eucalyptus forests. The 3 bridges (5km return) or Rangers Station (12km return) is perfect for those looking for some climbing on the return trip. Continuing downriver there are forests and open woodlands with smooth descents and short uphill bursts. Riders can continue onto Thredbo Diggings (14.5km one way), Lake Crackenback (20km one way) or the whole way to Gaden Trout Hatchery near Jindabyne (35km one way). The trail between Lake Crackenback and Gaden Trout Hatchery is for advanced/expert riders only.

6 Golf Course Loop ■ 2.4km

Highlights: • Golf Course views • Follows the Thredbo River • Variety of terrain

Starting at the top of Crackenback Ridge, access is via Crackenback Drive close to the Thredbo Community Centre. Once through the top gate, riders head out on the singletrack skirting the 9 hole golf course, along the Thredbo River. With a few small steps, short technical climbs and the odd rock garden to negotiate.

Key to symbols used in trail descriptions: ● Easiest ■ More difficult ◆ Most difficult

SKILLS PARKS

13 Little Beauty Jumps - This intermediate jumps line is accessed via the Kosciuszko Flow Trail and will give riders more confidence in the air with mellow take offs and two lip options. Rider progression is paramount as they flow through table tops on this exciting section.

14 Skills Park – Beginner - Located on the valley floor, beginner riders will learn the fundamentals of mountain biking here. Riders can progress quickly before taking their new found skills to the easier gravity trails on the mountain.

15 Valley Terminal Jumps Zone - An array of jump options and features to take your air time to the next level. Most can be rolled allowing riders to warm up and advance to the bigger lines.

16 Village Green Pump Track - Great free-rolling fun for the whole family and all riding styles. The track design features rollers, berms and jumps. It is great for your skills and fitness.

17 Skills Park – Kids - Conveniently located in the village, the Skills Park is designed for kids to develop their mountain bike skills, while having a whole lot of fun.
